GOALS AND OUTCOMES

Goal 1: Improve healthy pregnancy and childbirth outcomes.

- 1. Outcome 1: Improve client's access to health care by referring and connecting clients to programs and services.**
 - 1.1 Number of clients who identified health care needs who are connected to an appropriate resource.
 - 1.1.2 Number of clients who identified health care needs who engage with programs and services to support their health-related needs.
- 1.2 Outcome 2: Increase client's access to behavioral health resources.**
 - 1.2.1 Number of clients who identified behavioral health needs who are connected to an appropriate resource.
 - 1.2.2 Number of clients who identified behavioral health needs who engage with programs and services to support their behavioral health needs.
 - 1.2.3 Number of female clients with perinatal depression needs who are connected to an appropriate resource.
- 1.3 Outcome 3: Increase client's knowledge of adoption resources and options for pregnant women.**
 - 1.3.1 Number of clients who received adoption support who report having an increase in knowledge of available adoption services for pregnant women.
 - 1.3.2 Number of clients who identified interest in adoption services who are connected to an appropriate resource.
 - 1.3.3 Number of clients who identified interest in adoption services who engage with an adoption organization.
- 1.4 Outcome 4: Increase in client's knowledge of what contributes a healthy pregnancy and birth.**
 - 1.4.1 Number of clients who received pregnancy support who report an increase in knowledge of impacts to a healthy pregnancy and birth.

EXHIBIT J GOALS AND OUTCOMES

Goal 2: Improve child health and development.

1. Outcome 1: Increase access to child health and development resources.

- 1.1 Number of clients who identified child health and developmental needs who are connected to an appropriate resource.
- 1.2 Number of clients who identified child health and developmental needs who engage with additional supports to meet their needs.
- 1.3 Number of clients who identified a need for infant material items who receive assistance.

1.2 Outcome 2: Increase client's knowledge of child health and development needs.

- 1.2.1 Number of clients who received child health and development support who report being more knowledgeable of their children's health and development needs.
- 1.2.2 Number of clients who received child health and development education who report an increase in knowledge of how to meet and address their children's health and development needs.
- 1.2.3 Number of clients who identified child health and development needs received related TTF services.

Goal 3: Assist families in achieving economic self-sufficiency and stability.

1. Outcome 1: Increase client's access to educational resources.

- 1.1 Number of clients who identified educational needs who are connected to an appropriate resource.
- 1.2 Number of clients who identified educational needs who engage with programs and services that support their educational needs.
- 1.3 Number of clients who received educational support who report an increase in knowledge of educational options and how to access those programs.

EXHIBIT J GOALS AND OUTCOMES

2. Outcome 2: Increase client's access to childcare resources.

- 2.1 Number of clients who identified childcare needs who are connected to an appropriate resource.
- 2.2 Number of clients who identified childcare needs who engage with programs and services that support their childcare needs.
- 2.3 Number of clients who identified childcare needs who report an increase in knowledge of childcare options and how to access those options.

3. Outcome 3: Increase client's access to housing resources.

- 3.1 Number of clients who identified housing needs who are connected to an appropriate resource.
- 3.2 Number of clients who identified housing needs who engage with programs and services that support their housing needs.
- 3.3 Number of clients who received housing support who report an increase in knowledge of housing options and how to access those options.

Goal 4: Increase workforce participation.

1. Outcome 1: Increase client's access to life skills supports.

- 1.1 Number of clients who identified life skills needs who are connected to an appropriate resource.
- 1.2 Number of clients who identified life skills needs who engage with programs and services that support their needs.
- 1.3 Number of clients who identified life skills needs who receive related TTF services.
- 1.4 Number of clients who identified life skills needs who report they are more confident in their abilities to gain employment.
- 1.5 Number of clients who received life skills support who report an increase in ability to implement learned skills.
- 1.6 Number of clients who received financial education who report an increase in knowledge of budgeting and family finances.

EXHIBIT J GOALS AND OUTCOMES

2. Outcome 2: Increase client's access to employment readiness support.

- 2.1 Number of clients who identified employment readiness needs who are connected to an appropriate resource.
- 2.2 Number of clients who identified employment readiness needs who engage with programs and services that support their needs.
- 2.3 Number of clients who identified employment readiness needs who receive related TTF services.
- 2.4 Number of clients who identified employment readiness needs who report they are more confident in their abilities to gain employment.
- 2.5 Number of clients who received employment readiness support who report an increase in ability to implement learned skills.

3. Outcome 3: Increase client's access to economic supports.

- 3.1 Number of clients who identified economic support needs who are connected to an appropriate resource.
- 3.2 Number of clients who identified life economic support needs who engage with programs and services that support their needs.

Goal 5: Promote marriage and family formation for participating parents.

1. Outcome 1: Increase client's access to marriage and family support resources.

- 1.1 Number of clients who identified marriage and family support needs who are connected to an appropriate resource.
- 1.2 Number of clients who identified marriage and family support needs who engage with programs and services that meet their marriage and family support needs.
- 1.3 Number of clients who identified marriage and family support needs who receive related TTF services.

2. Outcome 2: Increase client's knowledge of the impact of marriage and family dynamics on parenting.

- 2.1 Number of clients who identified parenting support needs who receive related TTF services.

EXHIBIT J

GOALS AND OUTCOMES

- 2.2 Number of clients who received marriage and family support who report an increase in knowledge of how marriage and family dynamics impact parenting.
- 2.3 Number of clients who received parenting support who report an increase in knowledge of parenting strategies.
- 2.4 Number of clients who received parenting support who report an increase in ability to implement learned skills.
- 2.5 Number of clients who received parenting support who understand the importance of their involvement in parenting.
