ORAL PRESENTATIONS

SCORING SUMMARY

The Oral Presentation is worth 100 points and will be used to determine award recommendations for the Funding Opportunity #2 (EMTF SCO).

Each criterion can receive a raw score of 0-10. The points awarded will be calculated based on the raw score and the number of points available for each criterion. For example, if a criterion has 2 points available and the Applicant receives a raw score of 8/10 (80%) the Applicant would get 80% of the points for that criterion, or 1.6 points ($0.8 \times 2 = 1.6$). The evaluation team will use the Oral Presentation Scoring Guide to score the questions or scenarios related to each criterion as one unit.

Raw Score Range

Excellent= 10

Acceptable= 7 - 9

Marginal= 4 - 6
